

RPN New and Prospective Member Orientation

Jonathan Cohen

Director, Workplace Programs

Center for a New American Dream

January 21, 2010

Agenda

- 1) **Welcome and Introduction**
- 2) **Services**
- 3) **Products**
- 4) **Membership Administration**
- 5) **Communications**
- 6) **Questions**

Questions?

Submit questions by typing them into the Questions box in your Go2Webinar application and we will compile and answer them during Q & A at the end of the webinar.

Welcome and Introduction

- **Founded at the White House in 2005**
- **International membership network**
- **Government, business, universities, nonprofits**
- **Best practices, tools, collective purchasing power**
- **>\$50B in annual spend**

RPN Members

- 248 RPN members
- Members employ over 750,000
- 2/3 have responsible purchasing policies
- Eco-labels are widely recognized and used
- 94% plan to do more responsible purchasing next year

Services

- 1) **Green Office Audits**
- 2) **Green Schools**
- 3) **Consulting and Training**

Green Office Audits

- **Assess green level of operations**
- **Cost savings**
- **Reduce energy use, emissions, and waste**
- **LEED purchasing assistance**
- **Improve employee morale**
- **Improve brand reputation**

Green Schools

- **Green cleaners and health**
- **Cost savings**
- **STARS (Sustainability Tracking, Assessment & Rating System) purchasing assistance**
- **LEED purchasing assistance**
- **Reduce energy use, emissions, and waste**
- **Satisfy green regulations**

Consulting and Training

- **Customized green purchasing policies**
- **Model green purchasing specifications**
- **Cost benefit calculations**
- **On-site sustainability audits**
- **Contract evaluation**
- **Product and vendor evaluation**
- **Custom responsible purchasing guides**
- **Training—On and off-site**

Products

- **Saving Green Guide** – money and environment
- **Green doesn't have to be more expensive**
- **Survey of purchasers**
- **Member benefit**
- **Best practices for saving green**
- **Case studies**

RPN Resources: Purchasing Guides, Trends Report, Model Annual Report

Vincent Kitira
Manager, Responsible Purchasing Network
Center for a New American Dream

January 21, 2010

Questions?

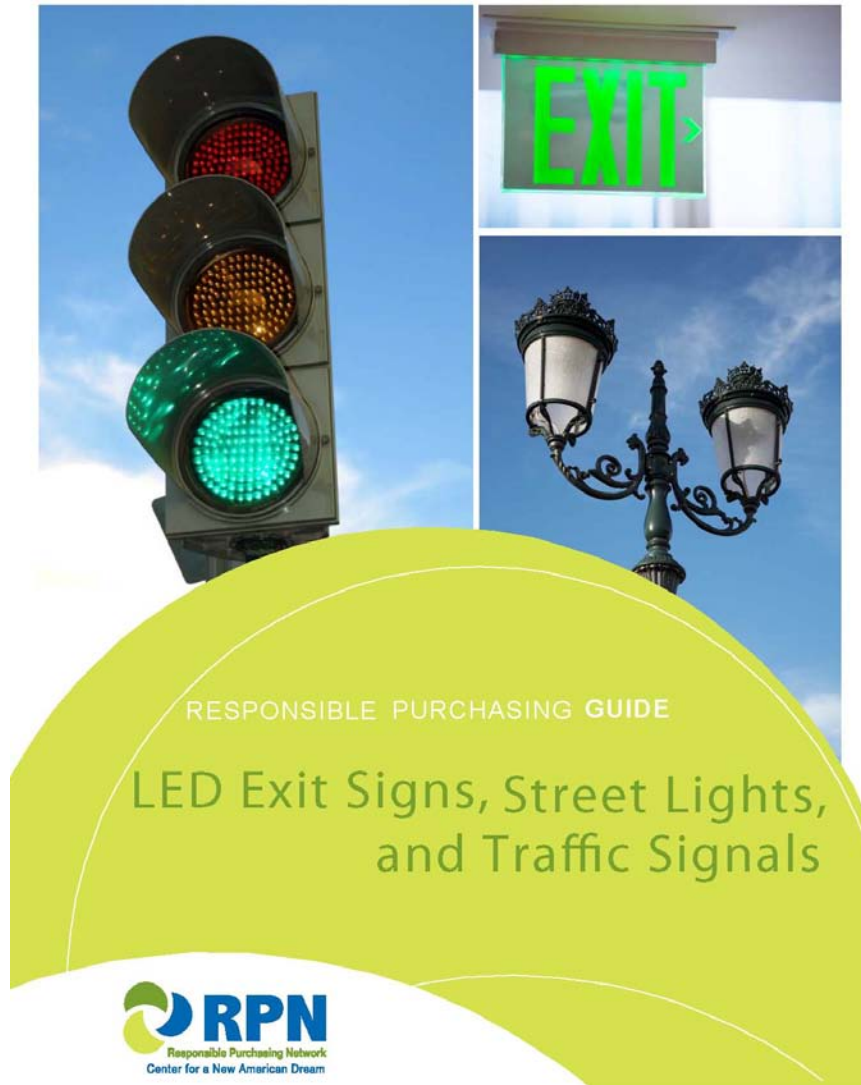

Submit questions by typing them into the Questions box in your Go2Webinar application and we will compile and answer them during Q & A at the end of the webinar.

RPN PURCHASING GUIDES

Contents:

- Overview
- Social and Environmental Issues
- Best Practices
- Cost, Quality, and Supply
- Policies
- Specifications
- Standards
- Definitions
- Case Studies
- Calculators

Product Categories:

- ▶ Bottled Water
- ▶ Carbon Offsets
- ▶ Cleaners
- ▶ Computers
- ▶ Copy Paper
- ▶ Fleet Vehicles
- ▶ Fluorescent Lights
- ▶ Food Services
- ▶ LEDs
- ▶ Graffiti Remover
- ▶ Green Power
- ▶ Office Machines
- ▶ Paint
- ▶ Toner Cartridges
- ▶ Tires, Wheel Weights

Social and Environmental Issues

Issues covered in this section:

- Energy and climate change
- Hazardous substances, health and safety
- End of life management

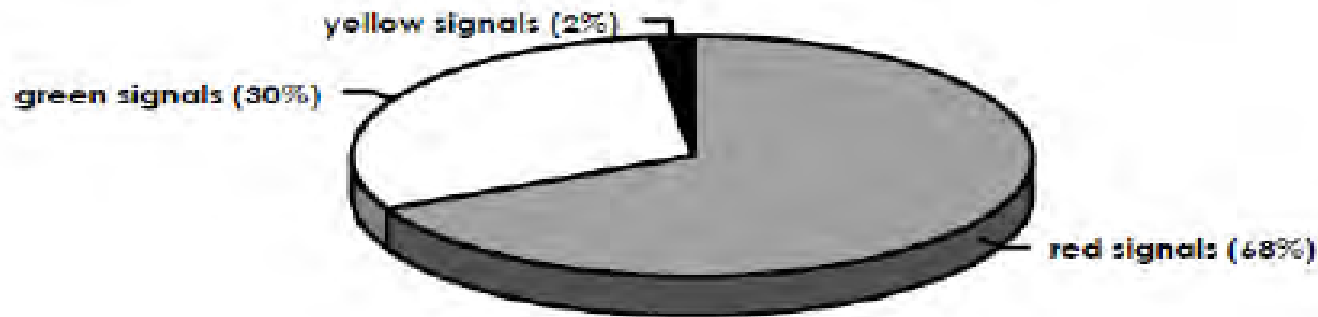

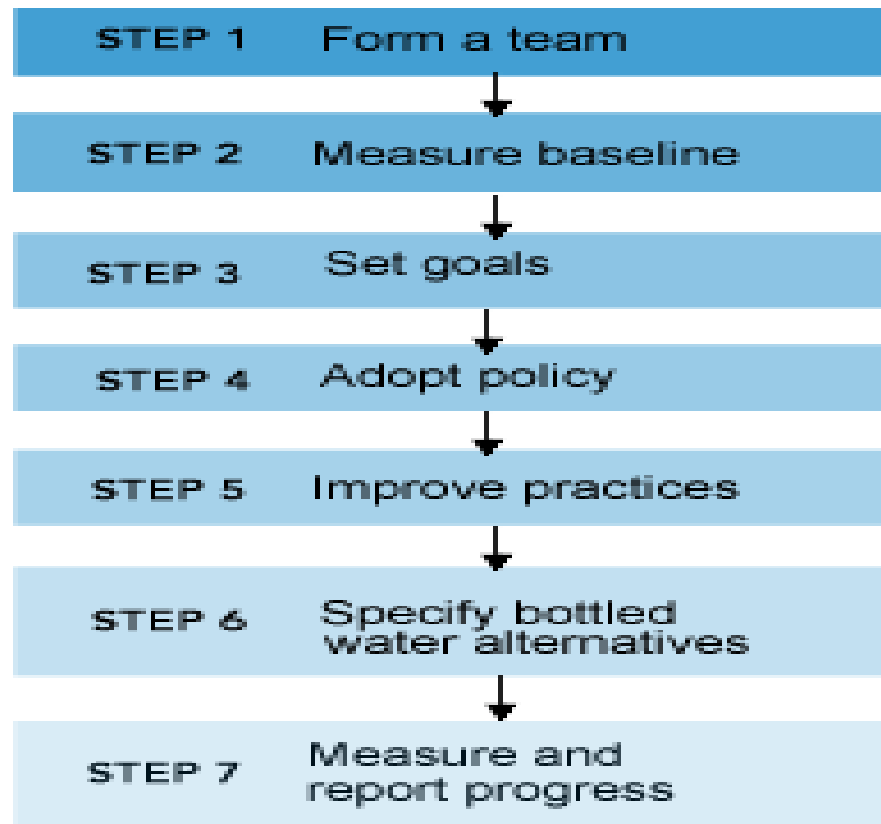

Figure 1: Percentage of total potential energy savings by traffic signal color. Red signals have the greatest duty cycle (55%) and red LEDs have the lowest wattage of all traffic signal colors. Therefore, retrofitting red signals represents the greatest potential energy savings of any color.

Best Practices

Figure 3: Best Practices Flow Chart

Cost, Quality, and Supply

- **What will it cost?**
- **How does it perform?**
- **Where is it available?**

Policies

- **Model and Sample Policies Relevant to Product Category**
- **Available for Federal, State, and Local Agencies; Universities; and Corporations**

Specifications

- **Model and Sample Specifications Relevant to Product Category**
- **Available for Federal, State, and Local Agencies; Universities; and Corporations**
- **Very useful contract language!**

Standards

- Overview
- Social & Environmental
- Best Practices
- Cost, Quality, & Supply
- Policies
- Specifications
- Standards
- Products >>
- Calculator
- Handy Facts
- Definitions

Cleaners: Products

Hundreds of cleaning products are certified by Green Seal and/or EcoLogo (see [Standards](#)), including products for general purpose, floor care, carpet, degreasers, drains, hands, hard surfaces and other industrial and institutional cleaning applications. The listings in this database are updated regularly, but please check directly with the certifying agency for the most updated list of certified products.

Products with a "U.S. Communities" header in the "Contracts" column are available on a U.S. Communities contract.

> [Download an Excel version of this listing](#) (last RPN update on July 9, 2008).

Search these results:

Search by Type:

< 1 2 3 4 5 >

>> [see all results](#) (page 1 of 113)

| Type | Manufacturer | Product/Model | Standards | Contracts |
|-------------------------|-------------------|----------------------------------|-----------|------------------|
| Floor Cleaner | Zep Manufacturing | Green Link Neutral Floor Cleaner | GS-37 | U.S. Communities |
| Floor Finish | Zep Manufacturing | Green Link Floor Finish | GS-40 | U.S. Communities |
| Floor Stripper | Zep Manufacturing | Green Link Floor Stripper | GS-40 | U.S. Communities |
| General Purpose Cleaner | Zep Manufacturing | Multi-Clean Green | GS-37 | U.S. Communities |
| Window / Glass Cleaner | Zep Manufacturing | Green Link Glass Cleaner | GS-37 | U.S. Communities |

Calculators

- **How to measure environmental benefits and cost savings?**
- **CALCULATORS!**

Responsible Purchasing Trends

Survey of 135 purchasers:

- ▶ Collectively spend ~\$53 billion annually
- ▶ 2/3 have 'green' purchasing policies
- ▶ 86% say environmental factors are very/important in purchasing decisions
- ▶ Most use ENERGY STAR, LEED, Green Seal, EPEAT
- ▶ 9/10 will do more green purchasing in 2010

Download the free report:
www.ResponsiblePurchasing.org

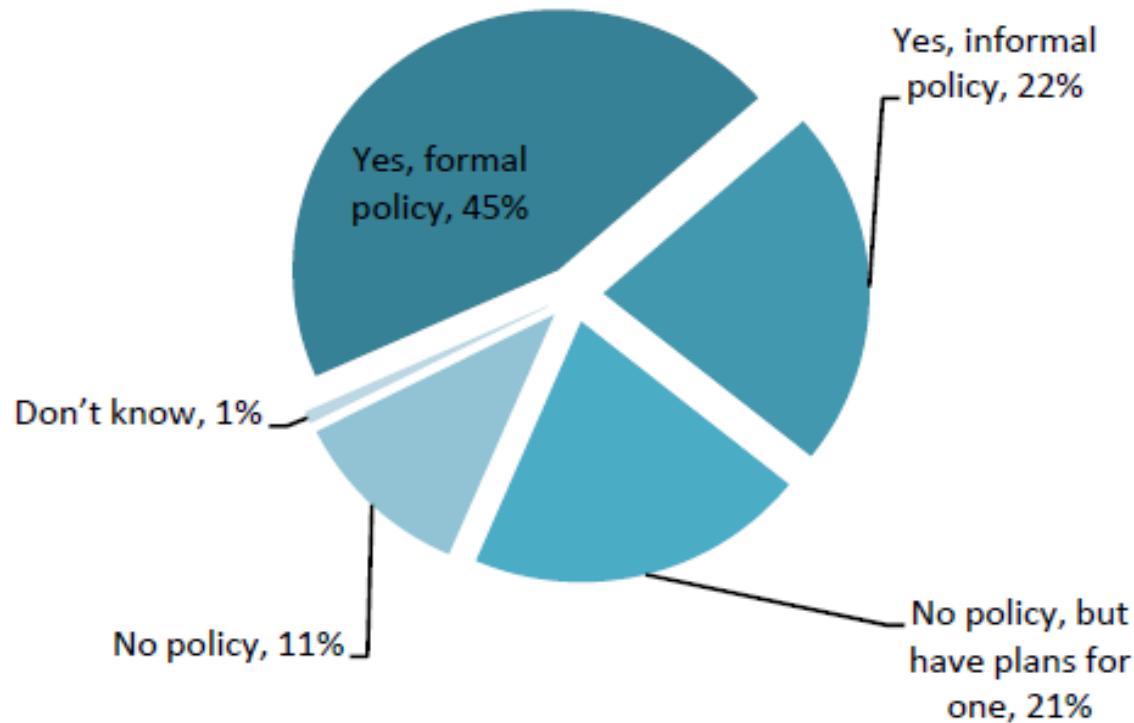

Achievements

- **135 RPN Members report spending \$4-\$10 billion on responsible goods and services in 2008**
- **One in five respondents used calculators to quantify financial and/or environmental impacts**
- **RPN Members employ more than 750,000 people**

Green Purchasing Policies

Responsible Purchasing Policies Are Prevalent
Percentage of Respondents

**2/3 of RPN
Members have a
green purchasing
policy**

Responsible Purchasing Factors

Top 3 Priorities:

- Performance
- Availability
- Price

~ 90% say **Environmental Considerations** are “important” or “very important”

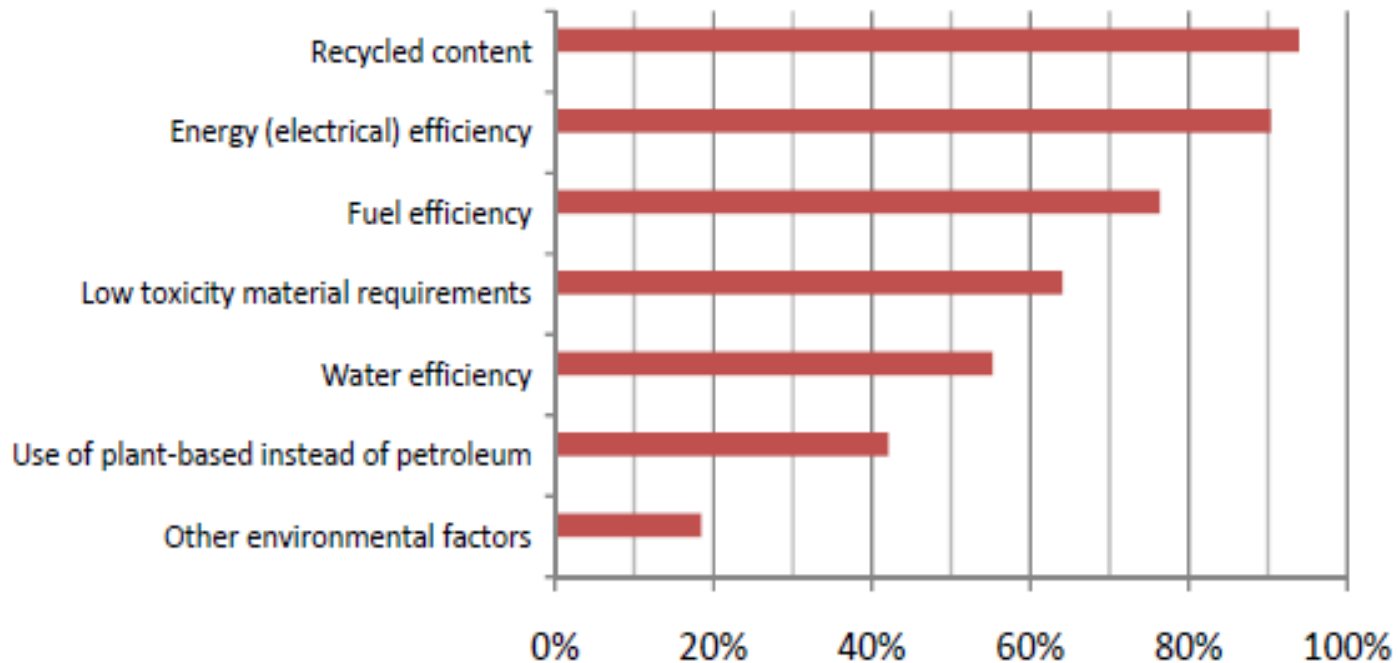

About 70% say **Social Impact Considerations** are “important” or “very important”

Responsible Purchasing Practices

Percentage of Organizations Including Environmental Criteria in Purchasing Decisions

Most Used & Recognized Ecolabels

Most Utilized and Recognized Standards

| Standard | Recognized/ Utilized |
|--|-------------------------|
| Energy Star | 100% / 94% |
| LEED | 91% / 70% |
| Green Seal | 90% / 66% |
| EPEAT | 81% / 61% |
| FSC (Forest Stewardship Council) | 76% / 46% |
| EcoLogo (Environmental Choice) | 87% / 46% |
| Chlorine-Free | 90% / 45% |
| EnergyGuide | 77% / 36% |
| GreenGuard | 71% / 29% |
| USDA Organic | 76% / 28% |
| Fair Trade Certified | 72% / 28% |
| CRI Green Label | 58% / 23% |
| C2C (Cradle-to-cradle) | 70% / 20% |
| SFI (Sustainable Forest Institute) | 59% / 19% |
| Green-e | 51% / 19% |
| SCS (Scientific Certification Systems) | 47% / 15% |
| DfE (Design for Environment) | 61% / 15% |
| WaterSense | 48% / 9% |

Other Publications

- **Paper Standards Comparison Chart**
- **Cooperative Contracts Factsheet**

RPN Paper Standards Comparison Chart

| Eco-label | Standard | Criteria |
|--|-----------------------------------|---|
|  http://www.greenseal.org/ | GS-07: Printing and Writing Paper | <ul style="list-style-type: none">- Contains at least 30% post-consumer waste by weight.- Manufactured without chlorine or any chlorine derivatives. |
| | GS-10: Coated Printing Paper | <ul style="list-style-type: none">- Coatings free of heavy metals and formaldehyde.- Contains at least 10% post-consumer waste.- Manufactured without chlorine or any chlorine derivatives. |
| Sustainable Forestry Initiative (SFI)  | 100% Certified Forest Content | <ul style="list-style-type: none">- All fiber is sourced from SFI certified forests. |

What are Cooperative Contracts?

Cooperative, or group, purchasing contracts are agreements between buyers and vendors designed to reduce the administrative burden of contracting while leveraging volume to negotiate preferred pricing and service for members of a group or consortium.

What are the Benefits?

- ▶ Reduced contracting costs due to limited:
 - RFP development
 - Advertising & solicitation
 - Evaluation, negotiation & contract award
 - Protests
 - Contract management
- ▶ Leveraged purchasing power:
 - Attains competitive pricing
 - Encourages responsive service
 - Shifts the marketplace toward greener products by demonstrating demand

What are the Possible Hurdles?

- ▶ Deal or perceived conflicts with your internal

Helpful Terms

Competitive Bidding/Solicitation is a transparent procurement method in which bids from competing contractors, suppliers, or vendors are invited by an openly advertised scope, specifications, terms and conditions of the desired contract, as well as the criteria by which the bids will be evaluated. Competitive bidding aims to obtain goods and services at the lowest prices by stimulating

Responsible Purchasing Announcements (RPAs)

Download RPN's New Paper Standards Comparison Chart

Responsible Purchasing Announcement

December 3, 2009

To make it easier for organizations to purchase environmentally preferable paper, RPN created a **Paper Standards Comparison Chart**, which outlines the differences between common eco-labels and their multiple standards.

It is no secret that paper production can cause substantial environmental harm. However, some paper mills have undertaken sustainability efforts and have earned recognition by several different third party certifiers. The Forest Stewardship Council (FSC) alone has 20 recognized pulp providers that provide over 350 certified paper products in the United States.

Environmentally preferable paper that has been certified by eco-labels contains authenticated attributes, such as the use of fiber sourced from sustainably managed forests, manufacturing processes that do not include chlorine or its derivatives, and the utilization of post-consumer recycled content. However, eco-labels frequently use different criteria and analyze different phases of production.

As a result, a wide variety of eco-labels and standards now exist for paper. So much so that it is not always clear what differentiates one from another. The new

Responsible Purchasing Guides

Our guides outline the scope and impact of responsible purchasing, and provide model purchasing policies and practices. They are available online or in print. Each guide includes:

- ▶ A social and environmental issues overview
- ▶ Best practices for implementing a responsible purchasing program
- ▶ Model policies and specifications
- ▶ Explanations of standards and certifications
- ▶ A list of products meeting our recommended criteria
- ▶ The latest responsible purchasing news

...RPN provided us with the data analysis demonstrating the long-term, positive environmental affects made by shifting to more responsibly made products.

- Perry Plumart
 Deputy Director, Green the Capitol Office, U.S. House of Representatives. Office of Greening the Capitol

Affiliate Membership

If you join RPN as part of an organization your co-workers are eligible for affiliate membership. They will each receive a unique login, and the same member benefits that you receive.

Expert Advice

RPN offers a variety of communications channels to learn from and network with peers and experts.

Cleaners: Overview

Welcome to the Responsible Purchasing Guide for Cleaners. This Guide provides information and recommendations on responsible use and purchasing of office cleaning products.

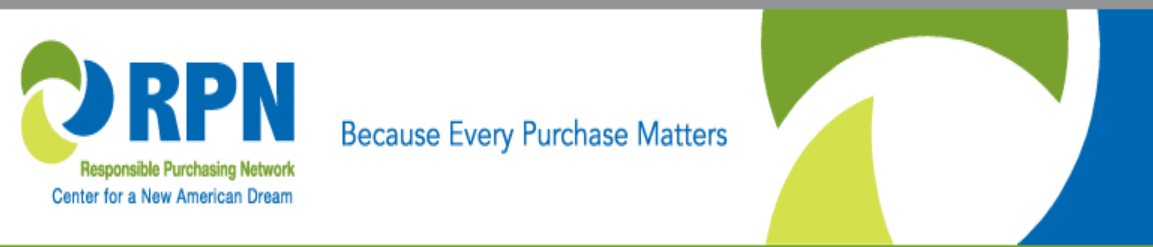

Below we provide an overview of each section of the Guide: [Social & Environmental Issues](#); [Best Practices](#); [Cost, Quality & Supply](#); [Policies](#); [Specifications](#); [Standards](#); [Products](#); [Handy Facts](#); [Definitions](#); and [Credits & Endnotes](#).

Social & Environmental Issues

The [social & environmental issues](#) section discusses environmental and human health problems associated with conventional cleaning chemicals. The ingredients found in one out of three commercial cleaning products are potentially harmful to human health and the environment (JPPP, 1999). Custodial staff and others who spend time indoors, such as office workers, health employees (such as doctors and nurses) and students, are particularly susceptible to the health risks posed by these products. Health problems associated with cleaning chemicals include reproductive disorders, major organ damage, permanent eye damage, asthma and other respiratory ailments, headaches, dizziness, and fatigue (Culver, 2002; EPA, 2007). These chemicals can also find their way into lakes, streams, and other water bodies (some of which may serve as drinking water sources), presenting further health and environmental concerns.

Best Practices

The [best practices](#) section discusses how to structure and implement green cleaning programs. Effective green cleaning programs designate a dedicated team of stakeholders to address the issues and execute a plan. The team should measure baseline data, set goals, adopt a policy, review and adopt

Responsible Purchasing News

Join us January 21st for an RPN New and Prospective Member webinar
 Whether your organization has recently joined RPN or is considering membership, please join us for our New and Prospective Member Orientation and learn how to get the most out of your RPN membership. [More](#)

Bottled Water Ban at Brown University
 Brown University became the first Ivy League school to pledge to stop using bottled water. Within a year, the school hopes to reduce bottled water usage from 250,000 bottles to 0. [More](#)

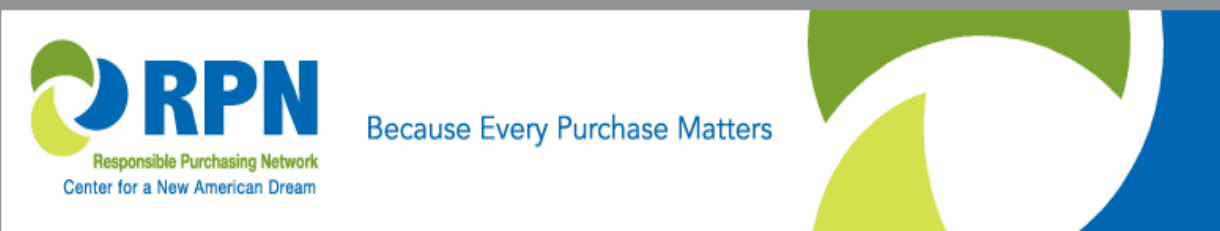

New and Improved Paper Standards Chart
 RPN's latest publication, a Paper Standards Comparison Chart, has been revised based on member feedback to include more background information on different paper certifications. This revision will make the acquisition of environmentally preferable paper easier by providing a clearer picture of the eco-labels that certify them. [More](#)

Director's Corner: Looking Back on 2009
 The end of 2009 fittingly will close with RPN becoming one of the inaugural certified green businesses recognized by Montgomery County, Maryland, where we are based, and being invited to take part in the launch press conference. [More](#)

Center for a New American Dream and RPN Receive Green Business Certification
 Montgomery County, Maryland awarded the Center for a New American Dream their new
